About Nurse Jessica

Nurse Jessica Sites, has over two decades worth of experience in the healthcare industry, as a labor and delivery registered nurse in Tampa area in Florida who knows all too well the emotional trauma, yet gratifying moments nurses go through on a daily basis. After 20 long years of 12 hour shifts, she finally took a leap of faith to become a full-time social media influencer who uses her platform, decades worth of healthcare experience, and comedic talent to be voice for workers in the healthcare industry while also being an outlet for other nurses and other healthcare professionals who are facing challenges in their career, and helps to bring awareness and educate them on their options as they navigate the many stresses, nationwide nurses shortage crisis, changes in the healthcare industry, and major societal challenges plaguing the healthcare industry. Now over 2 years later, Nurse Jessica Sites has become a trending social media sensation and is proud of how far she has come in such a short amount of time. She says that if she can give someone even a little chuckle in the midst of their crazy chaotic lives, then she believes she has accomplished her goal
